

## Americas Revival Heritage

In Americas Revival Heritage, Dr. Eddie Hyatt documents that America was founded by Christian revivalists and reformers who were seeking the renewal of all of Christendom. He shows how the Great Awakening in Colonial America (1726-1760) had a direct bearing on the founding of the nation and how America liberties are rooted in the thinking of these Reformers. In the final chapter, he analyzes the state of the church in America and questions whether a nation birthed and sustained by Spiritual awakenings can survive the current crisis without another national, Spiritual awakening.
