

Bitter Melon: Inside Americas Last Rural Chinese Town

At the turn of the century, the Sacramento Delta was home to thousands of Chinese immigrants. By day, laborers engaged in the back-breaking work of building the levees and harvesting crops. After work, many of them returned to the bustling, safe town of Locke. Locke, with its single-family homes, stores, saloons, restaurants, boarding houses, school, five gambling dens, and two brothels was the only village in the United States built and inhabited exclusively by Chinese. Bitter Melon: Inside Americas Last Rural Chinese Town is a collection of moving oral histories and stunning historical photographs (all printed in duotone), offers an unforgettable glimpse into this unique and vibrant community, and in doing so contributes significantly to our understanding of immigrant experience in California.
