

International Relations and Diplomacy for the Curious: Why Study International Relations and Diplomacy?

Take this book as your investment into your future. Learn how you can avoid the mistake of changing your college major again and again (and regretting later in your life). There is simply no need to waste your (or your parents) precious money and your time. Learn with certainty as to why International Relations and Diplomacy can be your best college major or field of study/research. Choosing your college major can be overwhelming. Deciding whether you should do your graduate/PhD degree can be overwhelming. You may not have any idea about the scholarship opportunities. You may be struggling to settle on your research area. You may not know about the career options available to you once you graduate. The ultimate purpose of this book is help the students (and their parents) who are considering International Relations and Diplomacy make a better-informed decision as to their major/career. Whether you are a freshman/undergraduate student or graduate/PhD student, this book helps you make a better-informed decision. In 17 Chapters, top professors from very prestigious universities in the USA, UK and Australia answer the questions including: * Why should you choose International Relations and Diplomacy as your major? * Why should you undertake a graduate/PhD degree in International Relations and Diplomacy? * What are the research areas/issues and scholarship opportunities in field? * What are the career options and best practice tips for the graduates? This is the first book of its kind ever published on International Relations and Diplomacy studies and research. In this book, we have invited a number of Deans/Professors from top-ranked US, UK and Australian universities to share their perspectives and invaluable advice to help you. Forget about self-assessment books which claim to help you identify your ideal major or

career. Forget about single persons perspectives as to why study International Relations and Diplomacy. You must not let someone to manipulate you. You need the expert help You need to consider multiple perspectives You need to know the full picture. You need to be able to make better-informed decisions about your life NOW. Contributing authors include professors from the Oxford University, Stanford University, American University, Indiana University, and Chapman University, to name a few. In the 15 Chapters, you will read very interesting and informative perspectives of these and other deans/professors as to why study International Relations and Diplomacy. We, at the Curious Academic Publishing, hope you benefit from this book. Whether its about making an informed decision about your major/minor or career options, or keeping yourself updated about the research trends/scholarship opportunities, this book will prove to be a valuable resource. You can read this student-friendly book instantly even without a Kindle device by clicking the Buy now with 1-Click button now.
