

Mending the Earth: A World for Our Grandchildren (IO Series)

The book is written from the conviction that people can create an ecologically sustainable and economically productive society. The voices in Mending the Earth are those of citizens who have been working to find strategies and solutions to our massive environmental problems. They write from the conviction that we can create an ecologically sustainable, economically productive society. They believe that changes needed to cope with environmental degradation will come only from responsible citizens re-shaping politics, business, economics, and technology.
