

The Dying Sahara: US Imperialism and Terror in Africa

In *The Dark Sahara* (Pluto, 2009), Jeremy Keenan exposed the collusion between the US and Algeria in fabricating terrorism to justify a new Saharan front in Washington's War on Terror. Now, in *The Dying Sahara*, he reveals how the designation of the region as a Terror Zone has destroyed the lives and livelihoods of thousands of innocent people. Beginning in 2004, with what local people called the US invasion of the Sahel, *The Dying Sahara* shows how repressive, authoritarian regimes - cashing in on US terrorism rents - provoked Tuareg rebellions in both Niger and Mali. Further, he argues that US activity has unleashed a new, narco-trafficking branch of Al-Qaeda. Keenan's chillingly detailed research shows that the US and its new combatant African command (AFRICOM) have created instability in a region the size of western Europe.
