

## The Greatest Sediton is Silence: Four Years in America

This passionate and controversial book is the work of one of Americas most outspoken and talented new journalists. William Rivers Pitts caustic critique of the last four years of American government gives voice to the growing tide of dissent and outrage with Americas leaders both inside the country and in the wider world. Burning with anger, this incisive and readable book argues that, under George W. Bush, America makes a mockery of the values of liberty and truth that it purports to stand for, and that it is now more important than ever to speak out. William Rivers Pitt reveals how the crisis in America has been engineered by a group of Christian conservatives whose attempts in 1998 to bring down the Clinton government led to the preversion of the American electoral process, resulting in the illegitimate installation of Geroge W. Bush into the Presidency by five like-minded conservative Justices of the Supreme Court. In the aftermath of September 11th, America has in many senses lost its way. Citizens are counselled to watch what they say by the White House, just as questions of deadly import are ignored by the government and the media. In their rush to defend liberty, George Bush and his allies are actually endangering the freedom of the individual, as laid down in international law. Yet how do we save freedom by limiting it? Why, after all this time, have there been no answers regarding what really happened on 9/11? Pitts message is clear: seeking answers and demanding truth is not treasonous. In these dangerous days, with all that is at stake, the greatest sediton in America is silence.
